ProductLife Consulting

Delivering C-level advisory for the Life Sciences industry

As the advisory division of ProductLife Group, ProductLife Consulting has been created to meet clients demand in the context of business model shifts: Driven by a need to expedite the time to market for medicines and health products, particularly in the face of the accelerating digital transformation, Life Sciences companies find themselves in a position where they require the support and expertise of a dedicated partner.

ProductLife Consulting was created to support Life Sciences companies in their decision-making and optimal implementation of those decisions.

Our team has delivered 60+ projects for 20+ clients since its inception, with close to half of them global in scope.
